 Portfolio: corradolocati.github.io/corrado-portfolio |  GitHub: <https://github.com/CorradoLocati>

Italian analyst with extensive ability in data analysis, electrochemistry, and materials science.

Dedicated team leader, able to manage time and tasks for the group, internal conflicts, and to successfully report tasks outcomes to internal and external stakeholders.

Fast learner, excelling as an independent worker, as well as being part of international teams. Known for structured approaches, critical thinking, strong work ethics, and enthusiasm for new challenges.

WORK EXPERIENCE

Data Analyst | London School of Economics and Political Science (Online) | 08/07/2024 – 24/02/2025

- Conducted data analysis for a financial data solutions provider; compared stock price movement of three popular stocks to macroeconomic factors and other indicators using Python. Developed a turnkey stock prediction model to support buy/sell timing decisions.
- Investigated customer demographics and loyalty points distribution for a game shop chain using Python and R; applied regression models, clustering, sentiment analysis, and visualization techniques. Delivered key demographic segments and priority monitoring parameters.
- Performed diagnostic analysis of NHS appointment service data with Python; found seasonal trends and reasons for missed appointments. Delivered actionable recommendations.
- Analyzed football player statistics with Tableau and Excel; identified correlations between performance attributes (ball control, penalty success) and age.
- Researched supermarket customer demographics and spending habits using Excel and Tableau; recommended strategies to increase sales.

Senior Electrochemist | Elestor B.V. (Arnhem, NL) | 01/01/2023 – 01/09/2024

- Led a team of five in researching novel platinum-based catalysts for bromine redox flow batteries. Achieved an 80% improvement in the company's knowledge of catalysts.
- Coordinated catalyst synthesis and characterization with internal and external stakeholders. Achieved 100% improvement in company knowledge on catalyst resistance to acidic solutions.

Application Scientist | Metrohm Autolab (Utrecht, NL) | 01/11/2012 – 01/11/2022

- Delivered more than 80 SOPs and QA/QC documentation in compliance with ISO 9001.
- Managed product development; launched new products including the battery app and duo coin-cell holder.
- Managed laboratory and demo warehouse; improved lab efficiency by 80% and warehouse utilization by 60%.
- Delivered lectures and workshops to internal and external stakeholders across Europe, Asia, Australia, and North America on electrochemistry, EIS, and instrumentation. Trained more than 100 area managers and students.

EDUCATION

Career Accelerator in Data Analysis | London School of Economics and Political Science (Online), | 08/07/2024 – 24/02/2025

Comprehensive training in data wrangling, statistical analysis, predictive analysis, A/B testing, decision tree analysis, sentiment analysis, using Excel, Python, R, SQL, and Tableau.

PhD in Chemical Engineering | TU Delft (Delft, NL) | 01/01/2006 – 03/02/2012

Thesis: Interaction between High-Voltage Cathode Materials and Ionic Liquids for Novel Li-Ion Batteries.

Second-Level Master in Material Science for Micro and Nanotechnologies | IUSS (Pavia, IT) | 01/02/2005 – 01/02/2006

Synthesis, structural and electrochemical characterization of high-voltage nanostructured cathode nanomaterials.

Master's Degree in Material Science | Milano-Bicocca University (Milan, IT) | 01/10/1995 – 09/03/2004

Thesis: Interaction of Boron Trifluoride with Defective Sites of Binary Oxides (theoretical chemistry).

SKILLS

Technical skills

- Data Analysis with Python (numpy, pandas, matplotlib, seaborn, statsmodels, sklearn, math, SciPy, wordcloud, nltk, textblob, collections), SQL, R (tidyverse, dplyr, skimr, DataExplorer, ggplot2, psych), Tableau, Microsoft Office (Word, Excel, PowerPoint), Octave.
- Machine learning and AI applications, customer analytics, customer intelligence, and open-source technology.
- Product development & Management, Project Management Tools (Miro, Asana).

Core Competencies

- Teamwork, Problem Solving, Communication, Adaptability, Planning, Self-Management, Observation, Decision Making, Collaboration, Diplomacy, Empathy, Professionalism, Ethical Responsibility.

CERTIFICATIONS AND TRAININGS

- AI in Data Analytics – FourthRev Learning Track – FourthRev, London, UK (18/07/2025)
- Video Production for Marketing & Training – Metrohm Autolab, Utrecht, NL (12/2021)
- Product Management Bootcamp – Tarigo, UK (03/2021)
- Teaching Course – Metrohm AG, Herisau, CH (07/2016)
- Business Presentation Skills – Van Kessel Trainings, Loosdrecht, NL (01/2015)
- Scientific Writing in English PROM4 – TU Delft, NL (05/2009)
